

Labrador Uranium Commences Trading on the OTCQB Marketplace

Toronto, ON May 12, 2022 – Labrador Uranium Inc. (“LUR” or “Labrador Uranium”) (CSE: LUR) (OTCQB: LURAF) (F: E11) is pleased to announce that its common shares have commenced trading on the OTCQB under the symbol LURAF. The listing complements LUR’s existing DTC Eligibility.

“This new listing is an important step in unlocking value for our existing shareholders in the US, who have patiently waited since our spinout from Consolidated Uranium in late February,” commented Stephen Keith, CEO. “We expect this listing to provide greater visibility, liquidity, and access to a much broader range of US investors and brokers as we prepare our first drilling campaign in Labrador.”

The OTCQB is a US trading platform operated by the OTC Markets Group and is the premier marketplace for entrepreneurial and development stage US and international companies committed to providing a high-quality trading and information experience for their US investors. To be eligible, companies must be current in their financial reporting, pass a minimum bid price test, and undergo an annual company verification and management certification process. The OTCQB quality standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors.

The OTCQB listing has the potential to further enhance trading volumes through an expansion of investment advisers' ability to recommend investments to their US clients. Investors can find current financial disclosure and Real-Time Level 2 quotes for the Company on www.otcmarkets.com.

Nauth LPC acted as LUR’s OTCQB sponsor.

About Labrador Uranium Inc.

Labrador Uranium is engaged in the exploration and development of uranium projects in Labrador, Canada. LUR has acquired the Moran Lake and CMB Projects covering over 139,000 ha in the prolific Central Mineral Belt (CMB) in central Labrador and the Notakwanon Project in northern Labrador. Both the Moran Lake Project, which hosts historical uranium mineral resources, and the CMB Project, located adjacent to Paladin Energy’s Michelin uranium deposit, have had substantial past exploration work completed with numerous targets with uranium, copper and IOCG style mineralization. The Notakwanon Project is underexplored but drill ready. All three projects are expected to be the focus of an aggressive exploration program in 2022.

Cautionary Statement Regarding “Forward-Looking” Information

This news release contains “forward-looking information” within the meaning of applicable Canadian securities laws. Forward-looking information includes, but is not limited to, statements with respect to, completion of the Offering; the expected gross proceeds of the Offering; the use of proceeds from the Offering; the anticipated date for closing of the Offering; planned exploration activities; and other activities, events or developments that are expected, anticipated or may occur in the future. Generally, but not always, forward looking information and statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or the negative connotation thereof or variations of such words and phrases or statements that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved” or the negative connotation thereof.

Forward-looking information and statements are based on our current expectations, beliefs, assumptions, estimates and forecasts about LUR’s business and the industry and markets in which it operates. Such forward information and statements are based on numerous assumptions, including among others, that general business and economic conditions will not change in a material adverse manner, that financing will be available if and when needed and on reasonable terms, and that third party contractors, equipment and supplies and governmental and other approvals required to conduct the Company’s planned exploration activities will be available on reasonable terms and in a timely manner. Although the assumptions made by LUR in providing forward looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors, which may cause actual results, performances and achievements of Labrador Uranium to differ materially from any projections of results, performances and achievements of Labrador Uranium expressed or implied by such forward-looking information or statements, including, among others: limited operating history, negative operating cash flow and dependence on third party financing, uncertainty of additional financing, delays or failure to obtain required permits and regulatory approvals, no known mineral resources/reserves, aboriginal title and consultation issues, reliance on key management and other personnel; potential downturns in economic conditions; availability of third party contractors; availability of equipment and supplies; failure of equipment to operate as anticipated; accidents, effects of weather and other natural phenomena and other risks associated with the mineral exploration industry; changes in laws and regulation, competition, and uninsurable risks, community relations, delays in obtaining governmental or other approvals and the risk factors with respect to Labrador Uranium set out in LUR’s listing statement dated March 2, 2022 filed with the Canadian securities regulators and available under LUR’s profile on SEDAR at www.sedar.com.

Although LUR has attempted to identify important factors that could cause actual actions, events or results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. LUR undertakes no obligation to update or reissue forward-looking information as a result of new information or events except as required by applicable securities laws.
